PPSL strives to prevent pollution and protect the environment by complying with relevant industrial regulations and laws at all stages of PPSL projects, from design, through to transport, storage, installation, and disposal.

PPSL review and implement policies and procedures on an ongoing basis as we are committed to having a positive impact on the environment. We recognise our responsibility to ensure our operations contribute towards environmental sustainability.

WE WILL:

- Provide a company framework for the setting of environmental objectives and targets
- Monitor progress against the set objectives and targets and communicate this to all employees
- Minimise energy use and air pollution by efficient maintenance of vehicles and equipment
- Reduce the use of paper by adopting electronic record keeping where legally viable
- Purchase from local suppliers where feasibly possible to reduce the transport requirements of acquiring company required stock of any sort
- Actively promote recycling both internally and externally to all customers
- Reduce waste through operating well managed programmes on all projects to achieve a right first-time project approach
- Promote vehicle sharing where practically possible for all journeys and use of public transport
- Incorporate leak detection systems into our pre-insulated pipe installations to detect any water loss.
- Ensure all waste is disposed of by licensed carriers
- Ensure all ground damaged due to excavation is restored
- Re-seed grassed areas as necessary and re plant trees or carbon offset where trees are impacted
- Protect and preserve wildlife on all projects
- Keep accurate pre and post records of any restoration activity conducted by PPSL or their associated contractors
- Communicate with residents and form a communication channel in residential areas directly impacted by PPSL projects
- Transition our fleet to more environmentally friendly vehicles

WE AIM TO:

- Improve our environmental performance by ensuring our Environmental Management System is appropriate to the nature, scale and impacts of our activities
- Promote best practice by providing information, instruction, supervision, and training
- Increasing awareness and encouraging development of new ideas and initiatives amongst all employees
- Ensuring legal compliance is achieved

All employees and contractors are expected to assist PPSL in the implementation of their Environmental Policy and do their utmost to ensure their own work as far as is reasonably practical is carried out with minimal risk to the environment. The policy shall be regularly reviewed and communicated to all employees and available to interested parties upon request.
